Annex B

**APEC CROSS-BORDER PRIVACY RULES SYSTEM PROGRAM
REQUIREMENTS: ENFORCEMENT MAP**

As outlined in the Charter of the APEC Cross Border Privacy Rules (CBPR) System's Joint Oversight Panel (JOP), an APEC Member Economy is considered a Participant in the CBPR System after the Chair of the Electronic Commerce Steering Group (ECSG Chair) has notified the Economy that the following conditions have been met:

- (i) The Economy's ECSG delegation, or appropriate governmental representative, submits to the ECSG Chair a letter indicating its intention to participate and confirming that at least one Privacy Enforcement Authority in that Economy is a participant in the APEC Cross Border Privacy Enforcement Arrangement (CPEA);*
- (ii) The Economy indicates its intention to make use of at least one APEC-recognized Accountability Agent subject to the procedures outlined in paragraph 6.2 of the Charter of the JOP;*
- (iii) The Economy's ECSG delegation, or appropriate governmental representative, after consulting with the JOP, submits to the Chair of the ECSG an explanation of how the CBPR System program requirements may be enforced in that Economy; and*
- (iv) The JOP submits to the Chair of the ECSG a report as to how the conditions in (i)-(iii) above have been satisfied.*

The purpose of Annex B is to assist Economies and the JOP in fulfilling the requirements of items (iii) and (iv):

- This document provides the baseline program requirements of the APEC Cross Border Privacy Rules (CBPR) System in order to guide the Economy's explanation of how each requirement may be enforced in that Economy; and*
- The information provided by the Economy will form the basis of the JOP's report.*

Column 1 lists the questions in the intake questionnaire to be answered by an applicant organization when seeking CBPR certification. Column 2 lists the assessment criteria to be used by an APEC-recognized Accountability Agent when verifying the answers provided in Column 1. Column 3 is for use by the Economy's ECSG delegation or appropriate governmental representative when explaining the enforceability of an applicant organization's answers in Column 1. Accountability Agents should be able to enforce the CBPR program requirements through law or contract and an economy's relevant privacy enforcement authorities should have the ability to take enforcement actions under applicable domestic laws and regulations that have the effect of protecting personal information consistent with the CBPR program requirements. Additional documentation to assist in these explanations may be submitted as necessary. This document is to be read consistently with the qualifications to the provision of notice, the provision of choice mechanisms, and the provision of access and correction mechanisms found in the CBPR Intake Questionnaire.

COLLECTION LIMITATION

Assessment Purpose - Ensuring that collection of information is limited to the specific purposes stated at the time of collection. The collection of the information should be relevant to such purposes, and proportionality to the fulfillment of such purposes may be a factor in determining what is relevant. In all instances, collection methods must be lawful and fair

USES OF PERSONAL INFORMATION

Assessment Purpose - Ensuring that the use of personal information is limited to fulfilling the specific purposes of collection and other compatible or related purposes. This section covers use, transfer and disclosure of personal information. Application of this Principle requires consideration of the nature of the information, the context of collection and the intended use of the information. The fundamental criterion in determining whether a purpose is compatible with or related to the stated purposes is whether the extended usage stems from or is in furtherance of such purposes. The use of personal information for "compatible or related purposes" could extend, for example, to matters such as the creation and use of a centralized database to manage personnel in an effective and efficient manner; the processing of employee payrolls by a third party; or, the use of information collected by an applicant for the purpose of granting credit for the subsequent purpose of collecting debt owed to that applicant

CHOICE

Assessment Purpose - Ensuring that individuals are provided with choice in relation to collection, use, and disclosure of their personal information. However, this Principle recognizes, through the introductory words "where appropriate" in the Framework itself, that there are certain situations where consent may be clearly implied or where it would not be necessary to provide a mechanism to exercise choice. These situations are detailed in part II of the CBPR Self-Assessment Guidelines for Organisations. Refer to the APEC Cross Border Privacy Rules Intake Questionnaire for a list of acceptable Qualifications to the provision of choice mechanisms.

ACCESS AND CORRECTION

Assessment Purpose - *The questions in this section are directed towards ensuring that individuals are able to access and correct their information. This section includes specific conditions for what would be considered reasonable in the provision of access. Access will also be conditioned by security requirements that preclude the provision of direct access to information and will require sufficient proof of identity prior to provision of access. The details of the procedures whereby the ability to access and correct information is provided may differ depending on the nature of the information and other interests, which is why, in certain circumstances, it may be impossible, impracticable or unnecessary to change, suppress or delete records.*

The ability to access and correct personal information, while generally regarded as a central aspect of privacy protection, is not an absolute right. While you should always make good faith efforts to provide access, in some situations, it may be necessary to deny claims for access and correction. Section II of the CBPR Self-Assessment Guidelines for Organisations sets out those conditions that must be met in order for such denials to be considered acceptable. When you deny a request for access, for the reasons specified herein, you should provide the requesting individual with an explanation as to why you have made that determination and information on how to challenge that denial. You would not be expected to provide an explanation, however, in cases where such disclosure would violate a law or judicial order. Refer to the APEC Cross Border Privacy Rules Intake Questionnaire for a list of acceptable Qualifications to the provision of access and correction mechanisms.

ACCOUNTABILITY

Assessment Purpose - *The questions in this section are directed towards ensuring that the Applicant is accountable for complying with measures that give effect to the other Principles stated above. Additionally, when transferring information, the Applicant should be accountable for ensuring that the recipient will protect the information consistently with these Principles when not obtaining consent. Thus, you should take reasonable steps to ensure the information is protected, in accordance with these Principles, after it is transferred. However, there are certain situations where such due diligence may be impractical or impossible, for example, when there is no on-going relationship between you and the third party to whom the information is disclosed. In these types of circumstances, you may choose to use other means, such as obtaining consent, to assure that the information is being protected consistently with these Principles. However, in cases where disclosures are required by domestic law, you would be relieved of any due diligence or consent obligations.*
